

## Presoaked Cleaning Cloths

Siebert is the leader in presoaked cleaning cloths for automatic blanket washing equipment. Our presoaked cloth rolls outperform competitive products because our cloth combined with our patented cleaning fluid simply works better. The secret is the technology advanced cleaning fluid, which requires fewer wash cycles which means less cloth is required. As a bonus, the Siebert cleaning fluid also leaves the printing blanket smooth and ink-receptive, reducing blanket piling and producing faster start-ups. The unique lubricating properties of the cleaning fluid eliminate problems associated with cloth linting. Our fluid is also low in V.O.C.s. Shorter wash times complemented with lower V.O.C.s is the 1-2 punch that sets our presoaked rolls apart.

## Benefits

- Patented low V.O.C chemistry
- Rolls are available in heavyweight, calendared and open apertured fabric to provide maximum scrubbing effect without harming printing blankets
- Reduced cloth consumption by as much as 50%
- Eliminate the cost of blanket wash solvent by 100%
- Eliminate odors related to hazardous blanket wash chemistry resulting in a cleaner and safer working environment for customers and employees
- Eliminate clogged spray nozzles and hoses
- Cleans LED, UV, EB, H-UV, and conventional inks on blankers and back cylinders
- Siebert UV rolls are specially formulated and tested to run safely on EPDM blankets and rollers

## Sheetfed Presses:

Siebert Presoaked cleaning cloths for sheetfed printing are designed for commercial, packaging, and plastic printing applications. These cleaning fluids are formulated for conventional and UV inks.

## Web Presses:

Siebert Presoaked cleaning cloths for web printing are available in a variety of heavyweight, lightweight, apertured and calendared fabric. These cleaning fluids are formulated for conventional and UV inks.

## Water Emulsified:

Siebert cleaning cloth rolls can be manufactured using water-emulsified cleaning fluid to help remove paper lint and salt residue.

## DI Presses:

Siebert manufactures cleaning cloth rolls for DI presses.
