M-4 Blanket Wash

M-4 Blanket Wash is a medium drying non-water miscible blend of petroleum solvents and glycol ethers designed for cleaning conventional ink from rollers and blankets. Strong enough to quickly remove dried ink but mild enough to be used on a daily basis. M-4 Blanket Wash contains no HAPs (Hazardous Air Pollutants) with relatively low odor and high flash point.

Physical Properties

- Boiling Point:
340°F
- Vapor Pressure @ 68°F:
~3 mmHg
- % Volatile by Volume:
100
- Volatile Organic Compound:
6.48 lb/gallon
- Flash Point (TCC):
105°F

HMIS Information

- Health 2
- Flammability 2
- Reactivity 0
