RB-9010 Blanket Wash

RB-9010 blanket wash is a non-water miscible quick drying blend of hydrocarbons and citrus terpenes. It is slightly stronger than EW-33 Economy Wash and has been used on smaller presses for over 30 years. With a pleasant odor, good cleaning ability and fast evaporation rate, it is ideal for use in a short run, fast turnaround printing environment.

Physical Properties

- Boiling Point:
240 °F
- Vapor Pressure @ 68°F:
15 mmHg
- % Volatile by volume:
100
- Volatile Organic Compound:
6.25 lb/gallon
- Flash Point (TCC):
50°F
