PLT-SR-5

Plate Cleaner / Scratch Remover

PLT-SR-5 is an acid-based scratch remover and short-term plate preserver designed to remove ink, paper, and calcium salt deposits caused by alkaline paper. SR-5 quickly and easily removes scratches from plate surface and leaves plate ready to print. SR-5 contains 100% pure gum arabic and has very low odor. It works on aqueous and solvent based plates. SR-5 has a 20+ year industry track record.

Physical Properties

- Boiling Point:
>212°F
- Vapor Pressure @ 80°F:
<3mmHg
- % Volatile by Volume:
80%
- Volatile Organic Compounds:
4.33 lbs/gal
- Flash Point (TCC):
>=105°F
