Step 1 Roller Wash (ST-1)

ST-1 Step One is a blend of technologically advanced detergents and solvents designed to penetrate and suspend: ink, glaze, varnish, and paper dust. While suspended, EW-34 ECONOMY WASH can be used as step two to rinse rollers, leaving ink train clean and ink receptive. ST-1 is mild enough to be used daily as often as needed.

Physical Properties

- Boiling Point:
>315°F
- Vapor Pressure @ 68°F:
< 1.8mmHg
- % Volatile by Volume:
83%
- Volatile Organic Compounds:
5.71 lb/gallon
- Flash Point (TCC):
>=141°F

HMIS Information

- Health 1
- Flammability 2
- Reactivity 0
